Design & Development

Plan | Design | Build | Furnish

Design and Development at SIMEC Engineers Ltd. specializes in creating architectural solutions that reflect its clients' social and cultural variations. By deeply understanding client needs and aspirations, our engineers craft designs that are meaningful and tailored to their desires. Our professionals worldwide have significant expertise in their areas of specialization and in their local markets. Together, we act and think as a team, strong with one purpose: to achieve our clients' goals.

Our team takes a client-centric approach, combining creativity and precision to deliver architectural solutions that resonate with people from all walks of life. We operate at the forefront of our profession, consistently pushing boundaries. Our ability to stop, look, and listen sets us apart. Through thoughtful observation, we uncover insights that drive actions to improve and elevate people's quality of life.

Improve the possibilities...

Exterior

Exterior architectural feature is construed to include, but is not limited to, architectural style of such portion of the exterior of a structure as is desired to be open to view from a public way.

Interior

Interior architecture is the design of a building or shelter from inside out, or the design of a new interior for a type of home that can be fixed.

Landscape

Landscape architects analyze, plan, design, manage, and nurture the built and natural environments.

Renovation

Renovations (also called remodeling) is the process of improving a broken, damaged, or outdated structure.

Improve the possibilities...

Construction Management

SIMEC Engineers Ltd.'s Construction Management specializes in infrastructure development, landscape/embankment, steel structure building, road & bridge work, commercial renovation, building construction, and multi-residential dwelling. The company's continued growth can be directly attributed to its quality workmanship, expedited scheduling concepts, commitment to value engineering principles, and dedication to providing superior customer service. SIMEC Engineers Ltd. takes pride in fostering innovative solutions tailored to clients' unique project needs, ensuring efficiency and sustainability. Its commitment to precision upholds high standards, enhancing safety and performance. Construction Management fosters trust and long-term client relationships, reinforcing SIMEC Engineers Ltd. standing as a leader in the industry.

With a steadfast focus on excellence, SIMEC Engineers Ltd. consistently delivers projects that redefine industry benchmarks. Guided by integrity and innovation, the company remains a trusted partner in shaping the future of construction.

Supply Management

Construction Material Supply:

- Reinforcement
- Stone/ Stone Chips
- Brick / Brick chips
- Coarse/ Filling Sand
- All Steel Materials

Heavy Equipment Engagement:

- Excavator
- Pay loader
- Grader
- Crane
- Pile boring Machine
- Drum Truck
- Water Tank Truck
- Fork Lift
- Trailer
- LSB
- Lobet
- Roller
- Dozer
- Dredger

Projects Safety & Security Item Supply:

- CC Camera
- Security Alarm
- Fire Alarm
- Archway Metal Detector Gate
- Walkie Talkie
- All PPE Items

Project Medical Service:

- Ambulance Service
- Portable Medical Booth

Message

SIMEC Group has been established with a view to create an environment where people from different nations can work together, different projects can be established in different countries with ultra modern facilities.

Especially SIMEC has the intention to bring modern engineering & medical technologies to the developing countries as if people of those less privileged countries can be educated with latest science and technology and can be received international medical services. Developed countries can also establish its industries in the under developed countries to utilize its huge number of human resources. It is also intended to give you a better understanding of our approach and our vision for the future. So, let us assist you, increasing a project with truly no boundary. Your complete Satisfaction is our goal without sacrificing quality or time. We welcome your participation.

Think about Bangladesh, Think about us.
